

# LED RGB STRIP

We stock a wide range of RGB colour change LED ribbon.

Our Standard RGB has 30 x 5050 Epistar 12V LED per metre. It can be cut every 100mm and has 3M adhesive tape for easy installation.

Our High Powered RGB has 120 x 3535 Epistar 24V LED per metre. It can be cut every 50mm.

Our Professional RGB has 60 x 5050 Epistar 24V LED per metre. It can be cut every 100mm.

Its physical size allows the ribbon to be concealed, creating stunning effects.

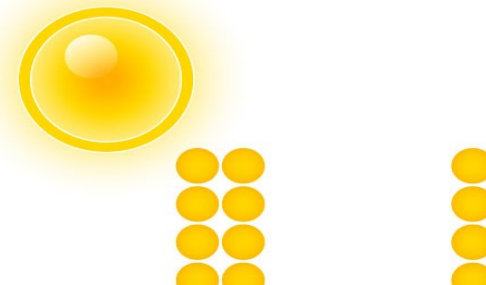

Available in IP20 or IP65 rated.

Snap-on connectors are available to avoid soldering.

Available to purchase by the metre or on 5m reels.

We also stock Bendable, Side Emitting & Digital RGB LED ribbon – please see relevant datasheets for full technical specification.

Requires either a 12V or 24V transformer & colour controller – please call our sales team on 01492 233002 for advice
