

CRI 95 LED RIBBON STRIP

For an application demanding the highest quality lighting our CRI95 LED ribbon is the best!

With the mix of a high CRI and 2700K this LED ribbon will make any display stand out. The SMD LEDs allow for great flexibility which in turn allows for stunning and creative effects.

The ribbon can be cut every 50mm and reconnection is easy by using our snap-on connectors – no soldering necessary. Available by the metre or 5m roll. Backed with 3M adhesive tape for easy installation. Requires a 24Vdc transformer.

CE certified & RoHS compliant
